## SUMMARY

Experienced educator with over a decade of successful English teaching in Japan, simultaneously honing skills in web development and design. Transitioning my expertise back to the United States job market, I am eager to refocus on my true passion for web development. By merging my instructional background with coding proficiency, I aim to create innovative and engaging digital experiences that satisfy clients and end-users.

## WORK EXPERIENCE

### English Teacher

**Showa Gakuin Elementary School**

- 📅 August 2013 - current      📍 Ichikawa, Japan
  - Designed and developed a custom web application using the Laravel framework and Vue.js to digitize the curriculum's paper-based materials. This application has been adopted by all the school's English teachers.
  - Create web content on the school's website to generate PR for potential parents and showcase day-to-day activities to currently enrolled families.
  - Design the biannual parental newsletter.
  - Design and create various posters, name tags, and other print media for classes and events.

### Web Developer

**HeadShot**

- 📅 August 2012 - August 2013      📍 Tokyo, Japan
  - Developed and maintained both front-end and back-end custom order web applications in JavaScript and PHP. These included projects for brands like Burton, Arena, and Penalty.
  - Rebuilt the CSS from the ground up for a custom e-commerce package.
  - Created back-end components using the FuelPHP framework and SQL for a funeral home's data collection system.

### Assistant Language Teacher

**Murakami City Board of Education**

- 📅 August 2010 - July 2012      📍 Murakami, Japan
  - Developed curriculum tools and print media for English classes.
  - Collaborated with other English and homeroom teachers in coming up with materials and teaching ideas.

### Web Designer

**Results Unlimited**

- 📅 February 2010 - July 2010      📍 Minot, ND
  - Designed and implemented original websites for clients.
  - Designed logo concepts using Adobe software.
  - Implemented custom CMS for clients to allow them to customize their own web presence.
  - Created and maintained social media presences for clients.
